One word best describes New Orleans native and soul man Steve Adams... Mojo ! Steve Adams has built quite the network over the years. Both a supreme vocalist and drummer Steve Adams musical path spans several decades performing and sharing the stage and studio with several of Louisiana's greatest artists. Steve Adams has fronted for several legendary Louisiana bands including TK Hulin and the Boogie Kings as well. Adding to his impressive list, Ernie K-Doe, Jessie Hill, Erma Thomas, Tommy Ridgley, Oliver Morgan, and Alan Toussaint.These days it's hard to mention Steve Adams without mentioning bass player and partner in crime "Wild Bucky Brown" Bill LeBlanc. Having been steeped in a lifetime of muddy water along with their prodigious musical knowledge these two gentlemen have undoubtedly developed one of the strongest rhythm sections the south has ever seen. It's hard to play this many years with afore mentioned talent and not conjure up a lifetime of mojo and soul. Speaking of mojo, strange enough these two have eluded the limelight of recording fame somehow... However, if you are lucky enough to live in Southwest Louisiana or be visiting Lafayette Louisiana Steve Adams and his Network play upwards of 150 shows a year. All locally! The Steve Adams Network knows how to keep it real, whether it's a full 8 piece band featuring his brass section "the Hurricane horns" complete with piano and percussion (Featured on his 2008 release "Playing

With My Friends") or his configuration of the Steve Adams Trio which features "Wild Bucky" Bill on bass and the incomparable Don Hebert on guitar. Did we say Steve Adams "Network"??? Well no surprise that the Steve Adams Trio not only hosts a number of talented guitar players such as veteran Ronnie Vice and fresh blood Jerome Vasquez they are also are the backbone for the "Leroy Stank Revue" which boasts local blues favorite Keith Blair. A soul shaker is what your gonna get with Louisiana's best kept secret the Steve Adams Network.

STEVE WILL BE INDUCTED INTO

The red light on the Levee

What can we say about that? It's been about three years there. Does anyone have any influence to get that road fixed?

It was suppose to be an evacuation route but never designated as such.

I WONDER WHY?

When hurricane Barry came through most people in Henderson lost power. You still had water. The Henderson/Nina Water System has a very large generator. It's maintained weekly and comes on automatically when power is lost.
